Subject: Ras Amir - Forest Reserve

23798—1000—1/6/33 Com. P.

Date	Description
15-7-33	Petition from Ismail Abdel Kader Mohd. Hamdan Abdel Malek and 39 cultivators, Taiyiba village.

Translation.

His Excellency the High Commissioner,
Thro' District Officer TulKarm.

We the undersigned Taiyiba cultivators have the honour to submit to Your Excellency that we possess about 5000 heads of animals, such as cattle cows, camels etc. and our livelihood depends on these animals.

Usually we use to graze all these animals in a special piece of land situated in the vicinity of Ras Amer and falls between the lands of Kafr Sur, Kafr Jamma and Taiyiba villages this land which we used as a pasture was taken by the Government for use as a forest reserve, and recently we noticed that the Government has commenced fencing of same to attach it to Ras Amer Forest reserve considering same as a reserve forest.

As a consequence of this we submitted petitions to the District Commissioner, NéD. and District Officer asking that the piece of land in question be kept as a pasture for our animals, and the purport of their replies was as follows:

> "That we should raise an objections within 3 months from the date of publication of the aforesaid place as a forest reserve in the Official Gazette"

and as we did not read same owing to our abode being ~~living~~ outside the village and we were not also aware of such action except when the Government commenced fencing of the said land and planting same with trees.

The Government should in the 1st place adopt and apply the protection of cultivators Ord. which has been legislated for the mere protection of the cultivators right and his grazing places, and by so doing the life of thousands of our animals will be secured and saved from death owing to lack of pastures, as it is against Your Excellency's will that our animals should die and our wealth be destroyed as a result of a slight mistake which was committed without being aware of same.

So we humbly beg in this Mazbata to ensure the life of thousands of our animals by retaining the aforesaid place as a pasture for our animals.

Subject:- Ras 'Amer East and West and El Mudahdara Forests reserves. Tulkarm S.D.

Reference. Your 70/T of 30-6-32.

Early at the beginning of 1932 the S.F.Officer informed me that the Forest Dept. is inclined to afforestate any uncultivable rocky lands situated near any main road, with various sorts of forest trees.

2. As this action in my opinion seems to be in the interest of the village inhabitants where such area is found, so I started discussion with the elders of Anabta inorder to afforestate the sloping of a mountain situated on the east of the quary at Nur Shams, and the Mukhtar of Tayiba, Kefr Sur, Kefr Jammal, Kefr Zibad for the afforestation of the land under question.

3. The inhabitants within whose boundary Ras Amir Forest falls principally agreed to this proposal but lately when this scheme was spread, certain individuals started to put in claims claiming right in the said land, the S.F. Officer was informed of these claims and to enable me to investigate the truth of these claims, it was agreed with the S.F.O. as a primary measures to make a plan of the land and accordingly the surveyor was sent to survey the area in question.

4. While the surveyor was in process of his work he was given all necessary aid required by the Mukhtars and they accompanied him pointing out to him the boundary and locality of the ground and the adjacent land owned by other individuals.

5. On the receipt of your enclosed file I notified the respective Mukhtars and as well as all persons claiming rights within the area surveyed and appointed a date for inspection to be made by myself and the S.F.O. and fixed the 24-7-32 as a date of our inspection.

6. On the appointed date the above mentioned two officers accompanied with the Mukhtars and the claimants who were present on the spot inspected each claim on its own merit the result of which is shown on the attached inspection minutes.

7. Three applicants failed to appear on the appointed date of inspection on the spot but however, I understand from the respective Mukhtars that their plots were excluded from the plan.

8. Whereas no new claims up to date were submitted I recommend that this area be declared as a forest reserve.

District Officer,
Tulkarem.

I enclose copy of the minute on our inspection together with the minute of the Forest Surveyor who has ~~examined~~ excluded the area claimed from the reserved area according to our decision.

A. J. GRASOVSKY

SENIOR FOREST OFFICER

1949-7500-B.M.P.

Minute on the Inspection of Claims in the Ras Amer and El Mudahdara Proposed Forest Reserves.

After the demarcation and survey of the above mentioned forest areas and prior to their reservation a notice has been furnished on the 20.6.32 by the District Officer, Tulkarem to the Mukhtars of Kufr Jemmal, Kufr Zebad, Tayibeh, and Kufr Sour villages, by which the above Mukhtars have been requested to notify all persons in their villages who might have any right in and claim to the lands included in the Ras Amer and El Mudahdara forest reserves to submit their claims to the District Officer, Tulkare, not later than a month from the date of the notice.

As a result the following 7 claims have been received :-

1. On a plot of uncultivated land in Ras Amer East claimed by Yousef El Assad El Kassem and partners of Kufr Jemmal village and argued by the claimants to be registered in the name of their uncle.

2. On a plot of uncultivated land situated in Ras Amer East and claimed by Mohammad Khader Abdul Latif and Afif Faid Mahmoud Abdul Latif of Kufr Jemmal village.

3. On a plot of uncultivated land in El Hadab locality claimed by Hussein Hassan Toba of Kufr Jemmal village.

4. On a plot of land known as Khallet Awad claimed by Abdul Karim Hassan Abdullah of Kufr Jemmal village.

5. On a plot of land in El Hadab locality claimed by Haj Ali Mudallal of Kufr Sour village.

6. On an area known as Khallet Saihalal claimed by Yousef and Suleiman Abdul Hadi El Ashkar of Tayibeh village.

7. On a plot of land situated in Ras Amer locality claimed by Tewfik Abdul Razzak of Tayibeh village.

On the 12.7.32 an invitation was sent by the District Officer, Tulkarem to all the above mentioned claimants to meet at Ras Amer on the 24.7.32. On the appointed date the District Officer Tulkarem and the Senior Forest Officer met with the claimants and investigated their claims on the spot with the following results:-

1. Claims 1 and 2 to be excluded from the demarcated and proposed forest areas.

2. Claim 6. Two plots should be excluded from the demarcated and proposed forest areas: one plot around the cave and huts belonging to the claimant and used by him for keeping his cattle, the second is an uncultivated but cultivable plot covered with ballan situated to the south of Rock Mark 52/M.

P.T.O.

3. Claims 3, 4, and 5 have been found out of the demarcated areas.

4. Claim 7. This claim could not be investigated on account of the failure of the claimant to attend the meeting. As far as known the area lies out of the demarcated areas.

I own a piece of land known in the name of El Hadab land. I now observe that some boundary marks have been erected in some parts of this land by the Forest Department.

These parts were left uncultivated this year due to my bad financial situation.

I therefore beg you to revise the boundaries of this land.

We were notified by the Mukhtar of Et-Tayibeh village, that Government intend to demarcate the locality known in the name of Ras Amer and making it into a forest reserve. As I own a plot of land within this locality of an area of about 300 dunams which is a source of my livelihood. I therefore approach with this application to request the Government to consider my case and to exclude my land from the Forest Reserve area and if this is impossible to substitute this area by another of the same area in another direction.

I thank you in advance.

We own a plot of land called the locality of Ras Amer situated within the said village.

The land is registered in the name of my uncle Mirshed at the Land Registry. The Forest Surveyor called at our village and included a part of this plot in the Forest Reserves. We left this part uncultivated this year owing to the bad financial depression.

We therefore beg you to give your instruction to those concerned to exclude our land from the Forest Reserves.

An agreement was made between the Mukhtars of El Taibeh Et Tahta, Kefr Jammal, Kefr Zebad and Kefr Sour villages on the subject of afforesting Jebal el Mudahdara which is neighbouring to the aforesaid villages for the benefit of villagers and for grazing of cattle. Afforesting will be carried out within the boundaries shown below :

North: Cultivable land of Kefr Sour and Taibeh villages.

South: Cultivable land of Kefr Jammal Zebad villages.

East : Cultivable land of Kefr Sour and Kefr Jammal villages,

West : The road leading to el Majdal and land property of Yousef 'Assef of Kour.

The total area of this forest will be about 4,000 dunams. Afforestation will be carried out on the condition that no encroachment should take place on the neighbouring cultivable lands. On 9.5.32 demarcation marks were placed on the boundaries of the said forest. On demarcating the said lands the Forest Surveyor included my land within the forest land. I have drawn the attention of the Surveyor to this point and explained to him that my land has been included in the forest area and that I could not benefit anymore from it. The Surveyor said that the idea of demarcation was only for placing marks for survey purposes. It was never made known to me by the Mukhtar that my land was to be included in the forest land. I therefore beg you to examine the land and to justify me.

3 days ago the Forest Surveyors reported at our village and surveyed the areas of waste lands. I own a piece of cultivated land adjacent to the waste lands. This year I left a part thereof uncultivated. On this part the Surveyors placed marks. This land is cultivable and it was left uncultivated this year because of my poor financial situation. I therefore beg you to inspect the land and to instruct the Forest Surveyors to take off the boundary marks placed by them.

An afforestation is being started at Kefr Jammal lands. I own some land adjacent to the forest lands. The forest was surveyed and marks were erected in my absence from the village, thus including parts of my lands within the boundaries of the forests. Also a piece of my property where a water cistern is situated was taken togetherwith a cultivable plot which is left uncultivated for grazing purposes for my animals. I have been dwelling at this land since long ago and can prove my saying. I have been paying werko and tithe taxes on the land.

I therefore kindly request you to take away the boundary marks off my land and to replace them on the forest lands only.

:- Ras Amer East and West and El Mudahdara Proposed Forest Reserves - Tulkarem Sub-District.

District Commissioner,
Northern District,
H a i f a.

Enclosed herewith please find the following documents regarding the above mentioned proposed forest reserves for favour of your observations and early return :-

(i) Map No. F/182.
(ii) Forest Surveyor's Report on Demarcation of Ras Amer East and West and El Mudahdara, Tulkarem.
(iii) Letter No.28/2 dated 29.4.32 from Forest Ranger Tulkarem.
(iv) Translation of Mazbatas.
(v) Draft Proclamation.

2. I am in receipt of six claims which have been sent through District Officer, Tulkarm. If, however, there are any further claims to the land demarcated, they should be submitted to the District Officer Tulkarm at an early fixedddate. The Senior Forest Officer will togetherwith the District Officer inspect the claims and consider their exclusion from the area demarcated.

3. Our intention is to plant the area as funds become available and we hope to start afforestation next rainy season. Planting will result in the production of cheap fuel, and possibly timber; will check soil erosion and limit water run up; and should have a favourable sheltering effect on adjoining crops.

Planting will result in the employment of local labour, and labour will also be employed when the timber is cut. It will also be possible to permit grazing after the trees have grown out of danger from grazing.

A. J. GRASOVSKY

SENIOR FOREST OFFICER.

Deputy Director.

Report on the Demarcation of Ras Amer and El Mudahdara Proposed Forest Reserves.

Situation.

The areas under report are situated within the boundaries of Kufr Jammal and Kufr Sur villages, Tulkarem, Sub-District. Starting at the Jaffa - Tulkarem main road at a distance of about 9 kilometres to the south of Tulkarem town, they stretch eastwards along the northern slopes of Wad el Uyun and Wad en Naml for about 6 kilometres up to Kufr Sur village.

Nature of the Areas.

The demarcated areas comprise the uncultivated and uncultivable parts of the slopes of the above mentioned wadies extending also over the more flat uncultivable spaces on the top of the hills.

The slopes are rising gradually towards the north to a height of about 300 feet. Generally the area around shows a gradual rise towards the east as from about 250 feet above the sea level at the Jaffa - Tulkarem main road up to 1000 feet at Kufr Sur village.

The areas consist of bare land partly rocky, without any trees on it at all, though of a good reddy soil understood to be suitable for afforestation purposes. Indeed the local inhabitants assert that some 3 or 4 decades of years ago these areas were covered with a natural forest which disappeared on account of excessive clearing.

A group of wells known as Uyun el Mudahdara are found in the Wady el Uyun just on the boundary of the El Mudahdara proposed reserve. Missing the necessary appliances I was unable to determine their supply in water. Roughly estimated their supply may amount at this time of the year to 2 cubic metres per hour. Lying relatively far from the villages around, hidden in the wadi, with no good access to them, they serve at present only a couple or so of fellahin famalies with their sheep and cattle which have settled on the top of the hills near the wells.

Besides, there are scattered over the area several old cisterns of a considerable capacity, in an abandoned state. With more or less repair they could be reconstructed and used for accummulation of rain water. Some of these cisterns are shown on the attached map; there are doubtless some more which escaped my notice.

P.T.O.

SFO 2. yn 7.91 30/5/32.

Demarcation and Boundaries.

The area demarcated is divided by the excluded cultivated lands into four separate areas: Ras Amer West, Ras Amer East, El Mudahdara and Hadab Yuniss. The last mentioned area has been demarcated but not surveyed. Soon after its demarcation the Mukhtar of Kufr Sur village raised claims on it saying that that village uses it as a grazing area and pays werko on it. The survey of this area, about 800 metric dunams has therefore been deferred until the Forest Ranger will approach the District Officer, Tulkarem on this matter and investigate the claim.

All the demarcated areas are surrounded by cultivated lands of Kufr Jammal and Kufr Sur villages except the northern boundary of Ras Amer East which is bounded by uncultivated forest land, mostly rocky known as El Wakf and claimed to be Wakf of Kufr Sur village.

The demarcation took place on the days 3-7 of May 1932 in the presence of the Mukhtars of Kufr Jammal, Kufr Sur and Taiyibe villages, Forest Ranger and Forest Guard, Tulkarem and myself.

Enquiries about Ownership.

Prior to the demarcation the area was inspected by the District Officer, Tulkarem, Senior Forest Officer and Forest Ranger, Tulkarem and found to be unowned waste land. Mazbatas were also obtained from the Mukhtars of the concerned villages asking for the reservation and planting of these areas.

District Officer, Tulkarem has been informed of the start and completion of the demarcation.

Forest Surveyor.

Chief Forest Officer
JERUSALEM.

Subject: Plantations 1932/33

Reference: Your letter NO:F/9-121 of 2.2.32.

I beg to state that on the 27th Ult. I have called the Mukhtars of: Kefr Jemal, Kefr Sour, Kefr Zibat, and Taibeh and explained them that the Forestry Service is intending to afforest the Hills situated Eastward of the Main Road Tulkarem-Kalkilieh called "RAS AMER" and than we proceeded to the spot and we found the following:

1. "RAS AMER &WAKF"

Locality. Thess Hills starts as from the Main Road Tulkarem-Kalkilieh abou 7 Kiles from the Town with the following boundaries:

Boudaries.

EAST: Cultivated land of Kefr Jemal village.
WEST: Main Road Kalkilieh-Tulkarem.
NORTH: Cultivated land of Kefr Sour called "Ard Wakf
SOUTH: " " " Kefr Jemal village.

Area: Approximate: 2000 DMS.

Ownership.

After researches in the Land Registry of Tulkarem I found out only Two extracts as per attached (a) & (b).
(a) Hassan iben Abdalla Hamdan of Kefr Jemal in possession of an Area of 10 Dunams with the boundaries of Rocks and Roads.

(b) Murshid iben Hamdan Kassem of Kefr Jemal in possession of an Area of 10 Dunams with the boundairs of Rocks, Mohamed Osaman, Rocks, and Mohamed Menzeli.

PALESTINE

I found out that (a) has sold longago without Kushans to:
Awlad Kassem Abdul Kader of Taibeh.
" Abdul Razek of "

After investigating I fount that this does not include the Hills only the Culivated land according to the Kushans.

Remarks. All allongside the Southers slopes of the Hills Trenches of the War excist.

2. " JEBEL MUDAHDARA"

Locality. These Hills are separated from "RAS AMER and Wakf by a path Called Tarek Mejdal.

Boundaries:
EAST: Cultivated land of Kefr Sour belonging to Ibrahim Marani, and Cultivated land of Kefr Jemal.
WEST: Cultivated land of Kefr Sour and Path to Khirbet Mejdal.
NORTH: Cultivated land of Kefr Sour and Taibeh.
SOUTH: " " " " " " Kefr Zebat.

Area. Approximate: 4000 DMS.

Ownership No Kushans exist on the said Area.

I enclose two Mazbatas signed by the Mukhtars and Notables of : Kefr Jemal, Kefr Sour, Kefr Zebat & Taibeh Villages for Every Locality separately included their application for the Afforestation of these Hills by the Forestry Service ; the inhabitants have expressed their request and beg the Department that the Labourers for the work should be taken equally for the work from the three villages neighbourhood to the proposed Plantations.

Suggestion.
I should like to suggest that the Forestry Surveyor should Survey the Areas according to the Mazbatas given by the Mukhtars and declare the Areas as Forest Reserves in the Official Gazette.
And as Concerning the Afforestation Scheme - it is referred for any action you may deem necessary, please.
